I just saw an email you sent out about Joe V31JP. I wanted to let you know
that I am no longer his QSL Manager. T talked to Joe last year when he was
visiting his daughter and told him that I will not be his QSL MGR. anymore.
Please pass this information around so other hams do not waste time, postage
& money sending QSL's to me as I will only be sending everything back to
them.

French HAMs try to get an allocation for the 6m band -
F1DUE, the president of the French amateur radio union REF, writes about his efforts to open the 6m band for French amateurs. Already last year the REF asked the French frequency regulation authority (ARCEP) to deal with the case of the 6m band which was suspended two years ago. The ARCEP informed the REF that they consider to assign the frequency range 50-52 MHz for amateur radio. Thus ARCEP placed this proposal on the agenda of the Frequency Planning Commission (CPF) which was held in March. Yet nobody knows when the change of the bandplan is finalized and comes into effect.
